A Living Space for Meditators, by Meditators

Homes near Isha, Designed for Sadhana and Simplicity

A Living Space
for Meditators, by Meditators

Homes near Isha, Designed for Sadhana and Simplicity

We are a collective of land developers, homestay hosts, senior-living specialists, and builders some of us long-time Isha meditators and volunteers brought together by a shared vision: to create meaningful, accessible living spaces near the Isha Yoga Center for those who wish to live, work, volunteer or retire close to the presence of Sadhguru and the Dhyanalinga.

Why Do We Exist ?

Over the years, we've seen a growing yet unmet need among meditators:

- *Those wishing to permanently move closer to Isha.*
- *People working remotely (WFH), looking for peaceful surroundings.*
- *Senior citizens seeking retirement homes with a spiritual touch.*
- *Visitors and volunteers needed short or long-term residents to participate in Isha activities at their own pace.*

We've assisted many meditators in purchasing land and staying at our homestays, and it's from these interactions that this initiative was born.

Our First Offering:
Apartments at DRD Vairavan Gardens, Alandurai

As a humble beginning, we're launching a small-scale apartment project exclusively for the Isha community.
